A large inverted Japanese mubrella, hunging in the centre from the roof and filled with different colored grasses attracts a great deal of attention. Elaborate handsome lamberkins, with rich gold ground worked in leaves and flowers, are also exhibited here. Standing on an easel is a landscape entitled "Lake George at Sabbath Day Point," painted by M. Semour Bloodgood, and given by him to the society. STRIFÉ OVER JERSEY CITY FINANCES.

The proposed investigation of the financial affairs of Jersey City was brought up before Justice Knapp, or the New-Jersey Supreme Court, Monday, at Jersey City. James Flemming, the chairman of the Taxpayers' Association, presented an affidavit, signed by twenty-five property-holders, in which it was alleged that the funds of the city had been improperly expended. The Cornoration Counsel, Leon Abbett, examined the affidavit and claimed that some of the persons who had signed it had not paid their taxes within a year, as the affidavit set forth. This caused much comment and Mr. Flemming asked who the delinquents were. Mr. Abbett named Drs. J. J. Youlin, Isaac N. Quimby and J. H. Vondy and John Lally and James McLoughlin. Mr. Flemming proposed to amend the petition by obtaining five new names, but the offer was refused by the Court. It was finally decided to take testimony before John A. Nugent at the City Collector's office as to whether the five men named had paid their taxes within a year. STRIFÉ OVER JERSEY CITY FINANCES.

The Dock Commissioners yesterday discussed the bill now pending in the Legislature to rebuild Washington and West Washington Markets. The committees of the Senate and Assembly, having the bill under consideration, were asked by telegraph to take no action looking to the passage of the bill until a protest should be filed by the Dock Department. Commissioner Dimock said that if the bill should pass allowing the rebuilding of West Washington Market, where it is now, it would be ruinous to the contemplated improvements on West-st, down town, and instead of giving a street 200 feet wide as the present law demands, would leave the street the same width as it is now.

Their fellow-tenants bore witness to having seen and heard him beat the unfortunate woman in their miserable rooms at No. 95 Crosby-st. Annie Wilson had seen him beat her in the street with a heavy cane, and knock her down. The woman drank, and was compelled by the organ-grinder to support him. When she failed to do so he ill-treated her. The verdiet was "death from injuries inflicted by Cornetto, accelerated by intemperance." The organ-grinder was committed to the Tombs without bail. MERCANTILE INTERESTS DISCUSSED.

One of the principal topics of interest before the Board of Trade and Transportation at its monthly meeting yesterday was the report of a special committee, through F. B. The evils of the system of bankruptcy in this State were pointed out, and the bankrupt law framed by Judge Lowell, and now before Congress, was approved.

Resolutions were adopted that the Hepburn railroad bills now pending in the Legislature should receive the hearty support and speedy action of the Legislature, and that the bill providing for a board of railroad commissioners should be so amended as to give them the same power to hear and act upon questions between railroad companies and shippers, and between railroads themselves, which is excrised by the English railway commissioners.

Resolutions were also adopted declaring that the State canals should be maintained for public use state canals should be maintained for public use state canals should be maintained for public use sand benefit only, and that the bill before the State Senate authorizing the use of the tow-path for railroad purposes under the specious guise of towing boats, and which is an attempt to obtain the canal for railroad purposes, to the ultimate destruction of its boating interests, should be defeated.

WRECKS AND OTHER MARINE DISASTERS.

The German bark Heva arrived in port Tuesday after a remarkably long voyage of eighty-six days from Hamburg, in a disabled condition. She had fine weather until February I, when heavy westerly gales set in, continuing until February 13; then a hurricane was encountered. The wind came from the southeast, and went all around the compass, and then back again to the same point, lasting twenty-four hours. The vessel was thrown on her beam ends, with the sea making a clean breach over her, and it became necessary to cut away the fore and mian topmasts before she righted. At ten a. m. on the following day, with the hurricane still increasing, and a very high sea, the jibboom was suddenly carried away with all the rigging attached, and the vessel was again thrown on her beam ends. The mainmast was then cut away and in going over the side the vessel was badly damaged and cansed to leak. The crew suffered greatly from exhaustion and exposure.

The bark Francesco, while being towed up the bay by the steamer William Beard Taesday, went ashore on a shoal in Swash Channel. She will probably be floated off when the wenther moderates.

The agents of the brig Lizzie M. Metrill, which sailed from this port for New-Orleans, January-31, learned Tuesday that the vessel had foundered off Cape Hatteras, in a gale. All on board were lost excepting Captain Ball, who was picked up from a plank, after floating for about eighty hours in the water, by the bark Vigilant. The Vigilant arrived at Quecustown on April 2. The lost vessel was owned by S. J. Southard, of Richmond, Me. where she was built in 1866.

It was rumored Tuesday that during the voyage of the steamship City of Richmond, which arrived from Liverpool on Monday with 1,258 steerage passengers, several occupants of the steerage were washed overboard—a woman who was without friends and unknown by any of the other passengers.

EXPLOSION IN A GAS HOUSE.

EXPLOSION IN A GAS HOUSE.

A lond explosion in the works of the New-York Gas Light Company startled the residents on the East Side in the vicinity of Twenty-first-st, yesterday afternoon. A second followed immediately. It blew off a portion of the roof of the "scrubbing house," on the First-ave, side, and gave vent to a fierce outbreak of flames that for a moment seemed to threaten destruction to the surrounding buildings. The firemen, who were summoned in force, soon gained control of the fire, however, and extinguished it in less than half an hour's time.

John Rolleter, a foreman who has been for more than a score of years in the employ of the company, and John Diamond another old employe, were preparing to clean the tank. Rolleter was thrown by the force of the shock from the top of the building to the ground, badly burned on every part of the body. His injuries are probably fatal. Diamond was burned and hurled to the ground from a ladder. He received two or three bad braises. Rolleter is 45 years old and lives at No. 355 First-ave.; Diamond is 61 years of age and lives at No. 215 Avenue-A. James Byrne, a workman, of No. 410 East Twentiethst, who was in the building at the time, was slightly injured. They were all taken to their homes in ambulances. President Lees, of the Gas Company, said that a few hundred dollars, probably not over \$300, would cover the damage done to the works.

A COTTON FIRM ASKS AN EXTENSION.

Dodge, Potter & Co., banking and commission merchants, No. 34 Pine-st., sent word to the Cotton Exchange yesterday that, owing to the extreme and rapid changes in the prices of cotton, and to the delay of customers in responding to the demands upon them to protect their margins on contracts, they were unable to respond to further calls upon them for account of their customers at present, and requested indulgence of creditors for a few days until their business could be properly adjusted. It was stated at the Cotton Exchange that the firm was carrying between 50,000 and 100,000 bales of cotton for its customers, and when this amount was put on the market for settlement to-day the quotations would be seriously affected.

The memorial will recite the action of the sub-committee and the result of its conferences with the Tammany and Irving Hall factions and declare that the action of the sub-committee has met with the approval of the Democracy of this city. It will also aver that the of the Democracy of this city. It will also aver that the delegates to be sent by Tammany Hall and Irving Hall do not represent the majority of the Democracy of this city. It will propose that the Convention shall consider seme practical plan by which the Democracy can be miled, and only one delegation sent to Cheinnati; that the delegation be unpledged, and expected to vote only as the circumstances of the case shall seem to require; that the two-thirds rule shall be entered, and machine rule be discarded.

George Ticknor Curtis thought the attitude of Tammany Hall not unceasonable. He believed that the delegates from this State should no to Cheinnati unpledged to any man. Unless this should be done, the Tammany party would be in condition to go to Cincinnati any show that a certain person could not carry the State. He held that belief himself.

The meeting adjuranced to Friday evening.

A YEAR WITHOUT SLEEP.

The remarkable restoration of Mrs. Susan B. Leighton, of New-Market, N. H., has attracted much attention. For nearly a year she had lived without sleep, by reason of pala and pressure under one eye and suffocation in the threat, Three physicians attended her, and the removal of the eye seemed inevitable. Preliminary to this, WRI DE MEYER'S CATARRH CURE was tried upon her. This was on Friday. On the following Monday, a polypus an inch and a half long, with a string on it, where it tore from the eye, was discharged from the nose through the mouth, followed by half a cupful of most disgusting nucous. The remedy was continued until her pain, expectoration and Catarrhal symptoms disappeared. She began to breathe, talk and sleep naturally; her eye was saved, and she was entirely restored. Her letter concludes; "Everybody ought to know of WEI DE MEYER'S wonderful CATARRHI CURE." Not less remarkable is the case of Chas. S. Stanbope, of 21 John-st., Newport, R. I., who writes to Caswell, Massoy & Co., druggists: "When I commenced the use of WEI DE MEYER'S CATARRH CURE I was TOO DEAF TO HEAR THE CHURCH BELLS RING. I am now able to hear ordinary conversation and to speak na-Three physicians attended her, and the removal of the ey TOO DEAP TO HEAR THE CHURCH BELLS RING.

am now able to hear ordinary conversation and to speak naturally." Mr. Samuel Benedict, jr., of Benedict Broa., jewellers, 697 Broadway, New-York, writes: "One packare of WEI DE WEYER'S compound cured a member of my family of chronic Catarib. I CANNOT SPEAK TOO HIGHLY of it." Mr. L. F. Newman, merchant, 303 Fulton-st., Brooklyn, was a terrible victim from chronic Catarib. He says: "My Agent and Catarible of the chronic Catarib. He says: "My Agent and Catarible of WEI physicians gave me no hope. After two weeks' use of WEI DE MEYER'S preparation I was greatly relieved, and subsequently ENTIRELY CURED," &c., &c. Pan over the eyes, crackling in the head, tickling in the throat snuffles and spurts of putral mucous upon the tonsiis or from the nostrils, ARE SIGNS OF CATARRH. The statements of many persons cured by the new treatment are published in WEI DE MEVER'S TREATISE, which is MAILED FREE to any one by his Agents, D. B. DEWEY, C. C., 46 Deyest, New-york. The CURE is DELIVERED by them, and is sold by leading druggists at \$1 00. It is A CONSTITUTIONAL CURE, not merely a local application—the most important nedical discovery since vaccina

BUT IT PROVED THE DESTRUCTION OF AN RNTIRE CITY, SOME HISTORIC INCL. DENTS SHOWING HOW LITTLE MATTERS BRING ABOUT

GREAT DISASTERS.

A mispronounced word of command led to the slaughter of the "Gallant Six Hundred" at Haiakiava. A slight error of information left Napoleon ignorant of the sunkes road at Waterloo: lost him the field on which his destiny depended, Waterloo; lost him the field on which his destiny depended, and changed the whole map of Europe. It was only a match, but it isld a whole city in ashes and thousands of families were rendered homeless. Only a tride but it may cost a life!

Trifles make up both happiness and misery, and controit the destinies of our lives. They decide whether we shall be joyous and healthful or despondent and miserable. Some people feel unaccountably tired, and their friends say "they are becoming stupid or larg." They realise this is not true, but cannot account for the unusual lassitude. Other individuals have continuous headaches and wonder what they have have continuous headaches and wonder what they have caten to cause such pain. There are still another class who have transient pains in different parts of the body, especially in the limbs and back, and they, too, fall to understand the reason. The cause in each case is the same; it is simple; it can be removed. But unless removed, and that premptly, the most serious consequences are certain to follow. Whenever a person has the symptoms above noticed there is something the matter with the kidneys. The one who is suffering may not know it, but it is so. It is only a short time since it has been discovered that most aliments arise from disordered may not know it, but it is so. It is only a short time since it has been discovered that most ailments arise from disordered sidneys, although is has been known for years that the most virulent, painful, and fatal diseases are those which originate in these organs. Fully one-half the American people, although apparently well, have something disordered about their kidneys which they do not realize, but which is aspitaging the life. It is refreshing to know that a recent discovery, being the only Kidney-leaf extract ever produced, will absolutely relieve and cure all forms of complaints arising from disornered kidneys. It is known as Warner's Safe Kidney and Liver Cure, and is unquestionably the purest, beet, and most certain remedy over brought before the public. It is for nost certain remedy ever brought before the public. It is for sale by druggists in all parts of the land, and unlike any other remedy ever before produced, is infallible. Every statement above made is scientific truth, and advanced thinkers and all who value the blessings of health cannot afford to ignor them.
